Jonah, thank you for your note on the lax consequences + rules regarding sexual abuse of children. I've been a foster parent + adoptive parent of children abused and know my nephew has been scarred by the actions of a counselor who abused him. I believe in harsh sentences for pedophiles... they don't rehabilitate well + are risk to community when released. Though this is largely a state issue I will support efforts + legislation that keeps these dangerous folks behind bars. We should also publicize the weak sentences of those judges so they get kicked out.

Sincerely,  
Jonah
